Praise you Almighty God Jesus, the Christ for this opportunity to speak truth to the children of men..

This is going to be interesting.. Before I begin... I invite any Bible believing Christian in love to challenge anything I write. No offense will be taken.. If Jesus were a Caucasian - I would love him the same. In fact when I were a younger man and thought he was white - I loved him then....

Praise the Lord.

Not only was Samson black, but From Adam to Jesus the Bible is black with exception to the non-indigenous white Greeks and Romans. I can prove this if you are willing to look at the scriptures with an open mind and forget what history, tradition, folklore, theologians and the television tells us what the race of the people in the Bible were.

The Bible not only substantiates that Cush (Gen 10:6 / Strong's # 3568) the progenitor of Ethiopia, and the grandson to Noah's youngest son Ham was black, but all 8 people on the ark.

There were no people on the Earth besides the 8 people who got off the ark.

Noah was Cush's grand father, therefore, he had to have been black as well. Think about this for a second. Cush was black, therefore all his brothers who had the same mother and father (Ham) were black as well. Remember, besides Noah's wife, there were 3 other women on the ark who I will prove had to have been black as well.

Cush other brother (Gen 10:6) Mizraim

was the father of the Egyptians.. Mizraim had the same mother and father as Cush, so did Phut who became the progenitor of the Lybians. And last but not least was the fourth son, Canaan born of Ham and his mother was also on the Ark... Now if you accept how I am explaining the Bible, you must accept that the Philistines (Gen 10:13-14) are black b/c they are descendants of the Mizraimites who I already proved are black according to the Bible..

Now explain to me how Ham could be black if Noah, and his wife weren't black? People... think... Noah's son Ham was the father of the African race.. Yeah, I will believe Noah was a white man the day George W. Bush could have a biological son with Laura Bush that could be mistaken for one of them African cast members of the Lion King on Broadway, one of Nelson Mandela's children or any of the Jackson 5 before plastic surgery

Continued -

You can't explain how two non-black people on the ark can have a biological son who became the progenitor of the African race..... Noah and all three of his son's were black.. The white race came about by the curse of Canaan (Lev 13:3-4, 13, 43)....

It's as simple as that.....

Now that you know Noah and his three son's were black you now know that Abraham, Isaac, and Jacob were also black.. Joseph was mistaken (Gen 42:7) for an Egyptian by his brothers...

So what do we have here? We have the black descendants of Shem (Joseph)

way beyond Abraham - being mistaken
for a descendant of Ham's 2nd son
(Mizraim Egypt /
Strong's # H4714) Mizraim.

Follow me.. 2 of Noah's sons descendants
of Shem (Joseph / Gen 42:7) and Ham
are mistaken for the same race...And
descendants of Japheth in the Apocrypha
(1 Maccabees 12:21) are called brethren
to the Israelites... And I am expected by
"society" to think that the entire (95%)
of the Bible is not black ? You can't fool
me anymore with your "his-story"...

Moses, Apostle Paul & all the sons of
Israel were mistaken for (Gen 50:11
/ Exo 2:19 / Acts 21:38) Egyptians
as well...

The Bible says Jesus had wooly hair,
[Daniel 7:9 KJV] feet in color to brass
burnt in an oven [Rev 1:13-15], and
compared his complexion to a birthstone
[Rev 4:3] which comes in many colors
including one the tone of Chris Rock..

Job said he was black as well as
Solomon.. (Job 30:30 / SOS 1:5-6)
God said Judah was black
[Jeremiah 14:2 KJV.. Lam 4:8], and
that Jacob would never become white..
...Isaiah 29:22..

If we are willing to shut the voices of
history (Jeremiah 16:19), tradition,
and the television out of our minds,
we can see that everyone in the
Bible except the Greeks and Romans
were black... And even the ancient
sons of Japheth were the first
Europeans, so whites are not even
native to Europe...

I almost forgot about the people of Sodom
(Gen 10:19) being black, as well the
Phonecians (Gen 10:19 / Sidon
Strong's # H6721) who we get most of our
English alphabet from...
